AICTE REGULATORY SCRUTINY WORKSTATION • SIH 2026

2-Minute YouTube Video Demo Script

Problem Statement 26261 • Complete Production & Narration Guide

Target Duration: **120s (2:00)**
Narration Pace: **140 WPM**
Word Count: **280 words**
• Production Ready

CORE DEMO OBJECTIVE
Demonstrate end-to-end automated institutional scrutiny: instant fraud detection on forged Fire NOCs, 3D evidence vaults, CAD blueprint shoelace area calculations, and court-ready deficiency notices in under 2 minutes.

LIVE WORKSTATION TARGET
`https://aicte-nine.vercel.app` (Dual Light & Obsidian Dark Mode, zero ML developer jargon, high-contrast statutory typography).

Scene 1: Hook & The Regulatory Challenge — 0:00 – 0:18 (18 sec)

VISUAL & SCREEN ACTION	VOICEOVER / SPOKEN SCRIPT	ON-SCREEN GRAPHICS & SFX
Hook / Opening Pan Start on full-screen overview of `aicte-nine.vercel.app` in clean statutory Light Mode. Smooth camera zoom on the executive header: "*Good Morning, Shri R.K. Verma*", showing 4,820 Total Dossiers and 148 Fatal Forgery Alerts.	*[Tone: Urgent, professional, authoritative]* "Every year, regulatory authorities process over ten thousand institutional approval dossiers. Scrutinizing thousands of multi-page blueprints, land deeds, and fire safety certificates by hand leads to severe backlogs and undetected document fraud. Introducing the **AICTE Regulatory Scrutiny Workstation**."	Lower-Third: AICTE Scrutiny Workstation Graphic: 10,000+ Dossiers Annually SFX: Subtle cinematic whoosh

Scene 2: Command Dashboard & 3D Glass Evidence Vaults — 0:18 – 0:42 (24 sec)

VISUAL & SCREEN ACTION	VOICEOVER / SPOKEN SCRIPT	ON-SCREEN GRAPHICS & SFX
Interactive Triage 1. Scroll smoothly to the interactive **3D Glass Evidence Vaults** . 2. Hover cursor over "*Fatal Forgery Dossiers Vault*" to demonstrate 3D tilt and specular lighting. 3. Highlight the **Interactive India Regional Compliance Map** and Quick Action cards.	*[Tone: Confident, fast-paced]* "Our Command Center provides instant, automated triage across all regional bureaus. At a glance, applications are classified by deterministic risk scores. Interactive 3D Evidence Vaults immediately isolate high-risk dossiers, active fifteen-day rectification clocks, and auto-cleared institutions with zero human delay."	Callout: Real-time Risk Triage Pill: Interactive 3D Evidence Vaults SFX: Soft glass hover chime

Scene 3: Scrutiny Workbench & Multi-Spectral Forensics		0:42 – 1:08 (26 sec)
VISUAL & SCREEN ACTION	VOICEOVER / SPOKEN SCRIPT	ON-SCREEN GRAPHICS & SFX
Deep Forensic Audit 1. Click on **Apex Institute of Technology**. 2. Show split-screen viewer: Uploaded Fire NOC vs. DPI Issuing Authority Record. 3. Click **4x Loupe** over expiry date showing altered "*30-06-2027*" over original "*2024*". 4. Toggle **Forensic Pixel Tamper Heatmap**.	*[Tone: Forensic, analytical, impactful]* "Inside the Scrutiny Workbench, uploaded statutory records are verified live against state registries through our National DPI Bridge. Here, our forensic engine detects that an applicant digitally altered an expired 2024 Fire Safety Certificate to 2027. Pixel-level error analysis and cryptographic signature mismatch expose the forgery in seconds."	ALERT: Certificate Tampered Tool: 4x Forensic Loupe Active SFX: Digital scanner chirp

Scene 4: Architectural Blueprint & Spatial Telemetry — 1:08 – 1:30 (22 sec)

VISUAL & SCREEN ACTION	VOICEOVER / SPOKEN SCRIPT	ON-SCREEN GRAPHICS & SFX
Blueprint Vectorizer 1. Navigate to **Blueprint Analysis**. 2. Show CAD room segmentation overlay with live Shoelace area calculation. 3. Highlight *Total Built-Up Area Deficit: -1,982.5 m²*. 4. Drag the **What-If Intake Simulator** slider to show real-time FSI threshold calculations.	*[Tone: Precise, technical, authoritative]* "For physical infrastructure, the Spatial Telemetry Studio automatically vectorizes submitted CAD floor plans using computer vision. It computes true carpet area using the deterministic shoelace algorithm, cross-verifies municipal Floor Space Index, and warns if multi-plot campuses violate AICTE contiguity limits."	Math: Shoelace Vectorizer Stat: FSI / FAR Deficit Flagged SFX: Smooth slider glide

Scene 5: Ghost Faculty Detection & Tamper-Proof Audit Chain — 1:30 – 1:48 (18 sec)

VISUAL & SCREEN ACTION	VOICEOVER / SPOKEN SCRIPT	ON-SCREEN GRAPHICS & SFX
Ghost Faculty & Blockchain Ledger 1. Click **Faculty Verification** to show cross-institution PAN duplication (same professor claimed at 3 campuses). 2. Navigate to **Audit Ledger** displaying immutable SHA-256 blocks for every scrutiny action.	*[Tone: Decisive, secure]* "The Faculty Bureau cross-references rosters with national EPFO records, flagging ghost faculty duplicated across multiple campuses. Every scrutiny event is cryptographically sealed onto an immutable SHA-256 audit chain for full legal accountability."	Flag: Ghost Faculty Detected Security: SHA-256 Merkle Ledger SFX: Block commit click

Scene 6: Automated Deficiency Notice & Closing Call to Action — 1:48 – 2:00 (12 sec)

VISUAL & SCREEN ACTION	VOICEOVER / SPOKEN SCRIPT	ON-SCREEN GRAPHICS & SFX
Action & Grand Finale 1. Click **"Issue 15-Day Deficiency Notice"** showing the auto-generated statutory order. 2. Toggle theme switch to **Obsidian OLED Dark Mode**. 3. Final hero frame with Ashoka Emblem, live URL, and SIH 26261 credits.	*[Tone: Inspiring, climactic, clear]* "Officers can generate legally binding statutory deficiency notices with one click. Transforming weeks of scrutiny into minutes. Experience the future of regulatory compliance live at **aicte-nine.vercel.app**."	URL: aicte-nine.vercel.app Theme: Dual Light/OLED Support SFX: Uplifting outro sting

VIDEO PRODUCTION & SCREEN-RECORDING DIRECTIVES

Recommended Capture Setup:

- **Resolution:** 1920×1080 (1080p 60fps) or 3840×2160 (4K 60fps) in 16:9 widescreen.
- **Browser:** Chrome / Edge in clean profile (no extensions or bookmark bar, F11 full-screen).
- **Cursor:** High-visibility smooth cursor with subtle highlight ring on clicks.
- **Zoom Level:** 100% browser zoom (all text & cards are pre-calibrated for maximum readability).

Key Interactive Moments to Hit:

- **Hover on 3D Folders:** Show perspective tilt and sheen on Fatal Forgery vault.
- **4x Loupe Zoom:** Hover precisely over the altered Fire NOC date (2027 vs 2024).
- **Intake Slider Drag:** Drag the student intake slider in Blueprint studio to show dynamic live math.
- **Theme Toggle:** Demonstrate flawless Light → Obsidian Dark Mode transition at the 1:50 mark.

YOUTUBE VIDEO DESCRIPTION, TIMESTAMPS & METADATA

```
Title: AICTE Regulatory Scrutiny Workstation — Complete System Demo | SIH 2026 (Problem Statement 26261)

Description:
AICTE Regulatory Scrutiny Workstation transforms complex institutional approvals into an automated,
deterministic, and forensic-grade workflow. Built for Smart India Hackathon 2026.

🔗 Live Web Application: https://aicte-nine.vercel.app
💻 GitHub Repository: https://github.com/aquasimp/SIH26261

⏱️ VIDEO CHAPTERS:
0:00 - Introduction & The Regulatory Scrutiny Challenge
0:18 - Executive Command Center & 3D Evidence Vaults
0:42 - Scrutiny Workbench & Multi-Spectral Document Forensics
1:08 - CAD Blueprint Vectorizer & Spatial Telemetry
1:30 - Ghost Faculty Detection & Tamper-Proof Audit Chain
1:48 - One-Click Deficiency Notices & Live Workstation Link
